Dear Parent or Carer,

RE: Revision Material

As you will be aware, all students in Year 11 have been provided with a £50 allocation to purchase revision materials to assist them at home with their revision for their GCSE examinations. Subject Leaders have provided us with a list of revision materials appropriate for the relevant exam boards.

We recommend that students prioritise the spending of their allowance by ensuring that they have revision guides for all their subjects and use any remaining allowance to buy appropriate workbooks or flashcards. Once students have placed their order, we will fulfil it as soon as possible.

Students have been given an opportunity to complete their order in school with the support of their form tutor. Any student who was not able to complete this in form time can complete their order using the QR code or link below. If students have any difficulty completing this order at home, they can use computers at lunchtime in school in ICT1.
