

21 February 2023

Dear Parent or Carer,

RE: Key Stage 3 Food & Nutrition

We are delighted to inform you that your child will be taking Food and Nutrition lessons for this half of the school year. Your child will be making a variety of dishes and will therefore be asked to provide food ingredients on some occasions this term. Students will be asked to put the required ingredients in their planners at least one week prior to the practical activity. Should a student be absent when ingredients slips are given out, they should speak to, or email, their teacher to request one.

We appreciate that it is not always cost effective to provide small quantities of some ingredients, so many of these will be now be highlighted on ingredients slips as 'available in school'. In order for us to accommodate the needs of our students please complete the form on this link, or use the QR code to the right. <https://forms.office.com/r/ZFyrGC1GQp>

Students will also need to bring a clean apron for all practical lessons. Aprons can be purchased through the online shop on the school website via <https://app.parentpay.com/ParentPayShop/Uniform/Default.aspx?shopid=1016> ("DT department small items") for £4.00, should they not have one at home.

Students should bring ingredients to their food technology room between 8.25 and 8.40 am to ensure they are stored safely and should bring a suitable container for carrying completed recipes home. Please ensure all boxes and bags are labelled with names to avoid confusion.

If you have concerns about providing ingredients, or for any other queries regarding food and nutrition lessons, please contact me on 01377 253631 extension 151 or by email via office@driffieldschool.org.uk.

Thank you in anticipation of your support.

Yours faithfully,

Mrs R Knight
Head of Design and Technology
